

# C5 Accessories

## ACCESSORIES TO MEET CLINICAL NEEDS

Take your Motion® C5 Mobile Clinical Assistant's (MCA's) productivity to the next level with Motion's customized accessories - improving your workflow through comfort, mobility and connectivity.

### FlexCarry

This ergonomic carrying solution clasps securely onto the back of the tablet to provide alternate methods for carrying and holding the device when in use.

### Docking Station

The full-featured, mountable, desktop docking station, includes a battery charging bay for keeping batteries charged and ready.

### Battery Charger

The battery charger for the Motion C5 is an external bay to charge additional batteries, giving the capability of a full day of performance. The charger's LED indicates battery charge status.

\*Additional battery sold separately

### Mobile Dock

With the Mobile Dock mounting/docking solution, the Motion C5 can be mounted in almost any location. Offering full port replication and charging capability, the powered dock is perfect for patient visits.

### Medical Grade Adapter

Provide power to your C5 with this splash proof adapter certified to meet international medical safety standard IEC 60601-1.

### Additional Battery

An additional battery is the perfect companion when working for extended periods of time away from a power outlet. The LED power meter eliminates guessing.

### EasyConnect

This lightweight add-on provides one USB 2.0 port and one Ethernet 10/100 port allowing for easy connectivity without compromising the C5's sealed design.

### EasyConnect Magnetic Stripe Reader

The snap-on module allows for secure credit card transactions at the point-of-sale, without bulky hardware to carry.

### ReadyDock™ C5E

Convenient charging and storage dock made specifically to house, charge and secure your Motion C5 Tablet PCs. Now available with Ethernet for improved IT manageability.

### Mounting Solutions

Mount your C5 to adapt to a broad range of working environments.

## Motion Clinical Workstations (MCW)

Built on Motion's expertise in clinical workflow and mobile computing, the MCW family of products meets the changing needs of fast-paced clinical environments. Combine the MCW with the C5 to deliver true mobile point of care.
